## Legendary tales! Heroic feats! Talking ponies!

Welcome to the world of BABSCon 2018: Fables & Fantasy!

We are thrilled to have you celebrating our fifth year of BABSCon with us! As our fandom has grown, so have we. This year, we have over 140 program offerings, 16 special event spaces, 2 nights of musical magic, 70 Artists and Craftspersons, 21 influential Community Guests, 9 Musical Guests, and 10 Guests of Honor. The BABSCon Executive Team and Volunteer Staff has worked tirelessly to create new and innovative experiences never before seen at traditional conventions.

Prepare to be surrounded by creative artwork, thought-provoking panels, impactful charities, innovative convention theatrics, live music and dancing, amazing cosplays, impressive room parties, a myriad of games, and to top it all off, the kindest and friendliest attendees you'll ever meet at a convention.

Friendship is without a doubt the magic that allows us to bring this convention together. As friends, we welcome you to explore and share in the experience we have created. The stories we make at BABSCon are the memories that will live on in our hearts as we spread the Magic of Friendship to the world.

Always in Friendship,

FableCharm, Chair

Bosn Otter, Vice Chair

# Our 2018 Charities

We would like to thank our two charities for 2018, The Game Academy and Guitars Not Guns, who have become key in their community and are bringing their gifts to our convention.

## **The Game Academy - [thegameacademy.org](http://thegameacademy.org)**

The Game Academy creates and supports game-based education that empowers life-long learners to achieve academic, social, emotional and personal success. We engage imaginations with interactive games wherein communication, creativity, collaboration and critical thinking are the keys to unlocking adventures in learning. Our curriculum is designed to help players make enduring connections between what they know, what they are learning, and what is possible. Most importantly, our games are designed to be FUN!

**THE  
GAME  
ACADEMY**

## **Guitars Not Guns - [guitarsnotguns.org](http://guitarsnotguns.org)**

We provide guitars and lessons to foster children and at-risk youth, ages 8-18, in a classroom setting with qualified teachers as an alternative to violence. Using high teacher-to-student ratios, each class consists of a maximum of 10 students with three adult instructors. Each program is 8 weeks long with a one-hour session each week. In addition to learning how to master changing from one chord to another, children learn perseverance & discipline and build self-esteem. More importantly, the kids learn to enjoy the interaction and have fun in a group setting. Those kids who complete the full 8 week program have earned the right to keep the guitar and are invited to return for a second 8-week session of more advanced instruction. They've earned it.

To our fantastic donors, our charity staff, and every pony that has given to make 2018 magical and heartfelt: I, personally, would like to send a special thank you to Divapony, Dusty Katt, Pickworld, and NinjaDivision/ SodaPopMiniatures for their generous donations. I would like to thank Ponymom, babadiscord, Fable, Bosn, Exec Staff and my chosen family {Casa de Chaos} for their support and much needed smiles when bringing these events together. THANK YOU FOR BEING 20% COOLER!

– MsTender, 2018 Charity Director

## Service Dog Etiquette For Attendees

-  Service dogs are working dogs! Please don't distract them from their work!
-  Never pet a service dog without asking first. If you distract the dog, they can't help their human!
-  Be considerate that sometimes you can't pet a service dog while they are working. Their jobs are very important!
-  If you have your own dog, steer clear of working service dogs. Doggy play dates are for another day!

## For Dog Handlers

-  Remember the three strikes rule! Sometimes your dog needs a break too!

We at BABSCon welcome all attendees and their helpers! If you have any questions, please visit the Accessibility Desk. Have fun!

# The Story Continues...

Almost three years ago, two treasure hunters were excavating on Alcoltraz Island and accidentally unleashed an evil sealed into the living rock over a century before: Queen Quake! Transforming her unfortunate saviors into hideous forms, she renamed them Andreas and Diablo, and made them her servants.

But the power that had sealed the Queen away, the Emperor's Staff, also woke from its century-long slumber to pass its power to a new generation of heroes—Golden Gates, Silver Span, and Copper Chip—so that they could stop her once more.

Despite being overpowered by Queen Quake, Golden Gates made a heroic stand to enable her siblings to escape to another world and hide the staff and prevent it from falling into the Queen's hooves...the world was ours, the place was BABSCon 2016.

Our heroes were defeated despite one of the Queen's former henchponies, Andreas, coming to see the light of friendship and joining their side. Queen Quake seized dominion over San Franciscolt, with the lone spark of hope coming from an unexpected place. Diablo, seeing his own opportunity for power, stole the Emperor's Staff and ran back to Equestria. When cornered by both our heroes and the Queen's forces, despite Andreas' pleas to his lifelong friend to find the good within himself, Diablo used dark magic to shatter the staff, causing a massive explosion which apparently vaporized him as well.

Driven underground, Golden Gates, Silver Span, and Copper Chip led a year-long Resistance against the Queen and her new lieutenants: the devious sorceress, Foreshock, and her brutal general, Aftershock.

Queen Quake, frustrated by her inability to crush the Resistance and the depowering she suffered when Diablo destroyed the Staff, was informed by her trusty dragon servant, Richter Scales, that she would have an opportunity to repair the staff, restore her powers, and crush her enemies, but it would require a trip back to the human world, to BABSCon 2017.

But this time, our heroes prevailed against the Queen, as Golden Gates, Silver Span, and Copper Chip won the hearts of the people in attendance. That unity reforged the Emperor's Staff in Golden Gates' temporarily human hand. But our heroes' joy was short-lived. Signaled by the power of the Staff's return, Diablo revealed himself at last, forcing both sides into enchanted slumber and stealing the power from the Staff.

Despite the overwhelming power of their now-shared enemy, Queen Quake refused to ally herself with Golden Gates. But her lieutenants, Foreshock and Aftershock, found the entreaties of a mysterious pony named Silicon to be very persuasive, and did ally with our heroes to strike at Diablo. Even so, they were defeated once again.

Diablo has issued an ultimatum to both sides: face him at the next BABSCon where he could prove to all that he was unbeatable.

Now desperate, the mysterious Silicon unveiled herself, showing herself to be Copper Chip from a future in which Queen Quake persisted in refusing to join forces with her erstwhile enemies, dooming them all to defeat. Where—and when—she is from, no hope remains. Her entreaty to all, convince Queen Quake to join her former enemy, that perhaps they might find victory this time.

Queen Quake, however, has other plans, and has already returned to our world just in time for BABSCon 2018...

## Golden Gates

Event planner extraordinaire, Former Guardian of the Emperor's staff, Defender of San Franciscolt, Golden Gates lost the battle for the staff in 2016 and her victory in 2017 she is now faced with a new enemy: Diablo, who has returned to pose an even greater threat to the city than Queen Quake ever could. Diablo handily defeated her, and challenged everyone to 'one last public dual, to show everyone, in both worlds, that I have won' at BABSCon 2018. To combat him, an alliance has been formed between herself and some of the opposition - much to the fury of Quake.

## Actor: Gabby Pantaloni (Strumpet)

Bio: Strumpet has been active in the MLP convention circuit since 2012. They love to cosplay Rarity as well as run and join in panels with topics ranging from romance to drama. Strumpet is a full-time dispatcher while they do independent voice over work. They were recently cast in the upcoming dating sim, "Something to do with Love." They currently live with their fiance Tarby, two rats, and rabbit. Strumpet thinks they'd be very good at reality TV.

## Silver Span

Skateboarder, adrenaline junkie, and pun-warrior Silver Span was just as rattled as her older sister was at the loss to Queen Quake in 2016. His worry, however, has been less for the city, and more for his sister, who sunk into a deep depression, feeling as if she's failed her city. The victory in 2017 went a long way to changing the spirits of the heroes, reinvigorating them. The rise of Diablo, and his powers of mind control worry the young pony, but he remains steadfast as ever! In the most desperate hour, his risk taking and devil may care attitude is a lot like the pilots of old, and helps to give hope to all.

## Actor: Ashlee Jones (KiwiShampoo)

Bio: Kiwi is a cosplayer and livestreamer who loves sweets, drawing, and anything Sanrio. She likes creating detailed costumes with her sisters and is always down to dive into new mysteries and theories surrounding her fandoms. If she could, she'd have an alligator for a pet and wear lolita all day, every day.

## Copper Chip

Saboteur, hacktivist, and mistress of data Copper Chip wasn't as impacted by Quakes victory as the others. While she had concerns about her sister and brother, she started compiling data about the Quakes activities, and making certain that all the non-oatmeal raisin cookies were safe. The victory in 2017 was hard, and the darkness that has risen in place of Queen Quake has caused her to seriously consider forming an alliance with Quake. She was key in reaching out to Scales, and laying the groundwork of an alliance.

Victories have emboldened her - when all hope is lost, she is the one to restore it.

## Actor: Amber "Foxy Lee" May

Bio: Amber May, aka "Foxy Lee", is an American voice over artist and video editor who is known for her work in animation, audio stories, on-hold messages, and children's entertainment. For over a decade, Foxy has lended her voice to over 100 projects, including Channel Frederator, Animatedjames, Animeme/Toonacracy/Yo Mama, and the Sonic game "Big's Big Fishing Adventure 3." Her 2 favorite things in the world are voice acting and SUGAR.

## Quake

Former outcast from pony society, treasure hunter, former muscle for Divintus - now known as Diablo - and for Queen Quake, Andreas has spent months in the human world, learning about friendship and finding his place. In 2017, the loss and return of his colthood friend has given the former Quake henchpony pause, as he struggles to connect the Diablo he sees before him with Divintus from his past. He remains steadfast, hoping he can save his friend, and blames Quake for everything. He and Silver Span have formed a brotherly connection, and the presence of the younger punster seems to have encouraged Andreas to lighten up.

# Dramatis Ponisae

## Actor: Gabriel Gentile (Gabe)

Bio: An actor and voice-over artist who currently resides in Camarillo, California. His favorite character is Spike, and if he could create an original character to be played by himself on the show, it would be a diamond dog with a triple-digit IQ (Rarity's worst nightmare). The quickest way to become his friend is to treat him to an IPA, to invite him to karaoke night, or to start quoting "Looney Tunes"

## Silicon/Alt-Copper Chip

Known locally as Old or Alt Copper Chip - comes from a timeline where she and her siblings failed to unite with Queen Quake to stop Diablo. She watched all she cared for be destroyed, fleeing only once there was no hope left, in an attempt to change things.

Working from behind the scenes, she has managed to help the younger Copper Chip form alliances, as well as having a clear plan on how to defeat Diablo once he is in our world. Her knowledge is what gives the allies the edge they need, and it may tip the balance enough that victory against Diablo.

## Actor: Crystal Machleit-Holt (Azyre Skye)

Bio: Crystal goes by Azzy in most circles, and is a Jill of all trades, and a mistress of none. A freelance self-employed worker, freelance artist, and gamer. A truth seeker above all, but also caring and will be there for her friends when they need her. Love fixes everything! :)

## Queen Quake

She threatened San Franciscolt until the Emperor locked her away in a prison under Alcoltraz island. There she remained, for 110 years, until Diablo and Andreas released her. The attendees of BABSCon 2016 awarded her the staff, merging her power with the staffs - until Diablo stole both, and fled back to San Franciscolt. Her loss in 2017 has cemented the realization that she doesn't have the power she used to, and that evil Golden Gates is to blame.

Her obsession grows, she lost sight of the need to ally herself with others against Diablo and she refuses to join them. Her waning power maybe needed against Diablo's own insanity and power.

## Actor: Fiaura The Tank Girl (Rena Miller)

Bio: Fiaura The Tank Girl is also called Fiaura The Science Pony. Are you ready for someone to pick apart your favorite universe and put it into perspective? She has acting experience in the Shakespeare Theatre with University of Delaware and has been Queen Quake since her inception in 2016. Check her out on YouTube and Discord if you wanna talk to her directly just look up Fiaura.

## Foreshock

Once enamored of Quakes power, Foreshock came to study her power - long before the Emperor, and Quakes imprisonment. She took the name 'Foreshock' to honor that power. She returned too late to aid in the battle at BABSCon 2016, and she was unable to make the victory in 2017 a reality for her Queen. The rise of Diablo, and her Queens blindness to the threat he poses has caused her to reach out to Cooper Chip. She knows an alliance is needed to combat the 'Emperor Diablo'.

She is worried Queen Quake is consumed by Insanity and obsession but will do all she can to protect her.

## Actor: Keyframe Productions

Bio: Keyframe is an artist, VA, and content creator. She has voiced for projects such as "Meet the Amazing Overwatch" and "The Mentally Advanced Series"

# Dramatis Ponisae

## Aftershock

World traveller and soldier, the pony who became known as Aftershock went from tournament to tournament, seeking the ultimate test of his skills as a warrior. The defeat in 2017 caused him to re-evaluate his loyalties, and he chose remains steadfast to Quake. He did not join her just to watch her be defeated, and Diablo threatens to do exactly that. He was the first to encounter Silicon, with her help he reached to Andreas for an alliance. Very Stoic, this serving captain of the guard often misses cultural references and clues. None, however, have been able to match his sheer talent in a fight, and as captain of the guard, none serve better.

## Actor: Antonio Grijalva (Blutonic)

Bio: Goes by Blu online and Tony in real life. Hailing from Los Angeles, California, he is a stunt driver for Hollywood by day, and PC gaming enthusiast by night. He even named his car Luna after his favorite character! Will never say no to a night of ramen and driving through some canyons.

## Richter Scales

Know it all, researcher, historian, scholar, book worm, and secretary. Richter Scales serves Queen Quake in those capacities, and more. Scales was in hibernation when his mistress was released, and dragons take forever to wake up - adolescent ones or no. Truth is, his mistress forgot entirely about him. He simply caught up on some of his 110 years book backlog reading. Once the loss in 2017 was apparent, he had hoped to get back to his reading. Diablo has become a threat to the city (and his books). He choose to reach out to Copper Chip to form an alliance. He was the first to propose an alliance between the two sides, and the first to vilified by Queen Quake. He is still loyal to the Queen, and sees his actions as a way to protect her.

## Actor: Ginkutsune (Gin)

Bio: Shadow second to Fiaura both in character and out. Aspires to be a better voice actor and writer though most times Gin is reading other people's work and doing edits inside their head. Has had a few gigs in VA work with The State of Pennsylvania Board of Education, a small appearance in a few web series including several with Fiaura the Tank Girl as a voice off screen. Somewhat shy but just bother them a bit and they will open up.

## Emperor Diablo (Divinitus):

No longer is he the abused, bullied colt. Now, he has power. And all will bow before him. His past is nothing, and his adoptive brother Andreas is looking for the colt that no longer exists. In 2016 he stole the staff with the intent of harnessing its power. Doing so broke the staff, and destroyed him. The truth couldn't be further from the truth. He has returned more powerful than ever. He engaged Quake, and proved he was more than a match for all she could muster. He's done the same to Golden Gates. Now, to shatter the hopes of all of their supporters, he needs to defeat them on the public of stages: At BABSCon itself.

## Actor: Electro-Blitz / Sweetie-Blitz

Bio: Hailing from the far away land known as the old world, EB has been involved with the MLP fan project/game known as Legends of Equestria. As an fan voice actor and singer, he has collaborated with several MLP musicians, runs his own youtube channel, and regularly attends conventions, both local and international.
